PRISM/GLOW Exhibition with light projection prism art

ARTBAY TOKYO x MATSUO TAKAHIRO PRISM/GLOW Exhibition to be held at Christmas

ARTBAY TOKYO will hold PRISM/GLOW, a prism installation exhibition by artist Matsuo Takahiro. Prism art and lighting works that have been specially commissioned for this exhibition will illuminate ARTBAY HOUSE in transparent jewel tones, providing a spectacular light installation unique to the HOUSE.

The onsite ARTBAY CAFÉ began serving a special limited-time-only drinks menu in honor of the exhibition on Friday December 11. At the POPUP STORE of EMISSION, a prism work brand directed by Matsuo, original accessories and limited edition goods for the Christmas season will be available for purchase.

ARTBAY TOKYO × MATSUO TAKAHIRO “PRISM / GLOW”

ARTBAY TOKYO was launched with the aim of creating an environment full of artistic charm that would attract people, and bring comfort and wonderment to their lives. We are proud to present PRISM/GLOW, a prism installation exhibition with special illuminations by artist Matsuo Takahiro.

Eight prism art works will be exhibited at ARTBAY HOUSE, a newcomer on the scene at Tokyo Waterfront.

This year the normal routine of our lives has been drastically altered and we have not been able to mark the changes of the seasons with the customary events. Our way of living has also been greatly affected.

We hope to share a special scene of ordinary life that the viewer doesn't just see, but also exists in, experiencing a space filled with prism illuminations of bright jewel box colors to make an unforgettable memory to close the year.

Concept of ARTBAY TOKYO

ARTBAY TOKYO is a new project that connects people to places with diverse art forms at Tokyo Waterfront. The project started in 2019, aiming to promote people's awareness of the area and encourage them to come, as well as stimulating their appreciation of art. The project will promote new attractions of the Tokyo Waterfront through discoveries and surprises that visitors experience with diverse art works.
